Aburi Word of the Month: Awareness

We hear this word often, but what does it really mean? We interviewed Hide, Aburi's Director of Operations, to better understand Boss' vision for Aburi.

"Awareness is a tool for success, both at work and in daily life. Awareness at the restaurant doesn't just mean noticing guests' empty glasses and plateware; it is asking the question 'why'; why we want to do certain things a certain way. Being aware of the 'why's' will help to see the bigger picture.

Awareness also means noticing chances for growth. We want our team to be aware of their own potential and opportunities to achieve that. No matter what their future plans are, we hope that they can gain valuable skills at Aburi to succeed. In the end, we all succeed by being more aware of the opportunities around us." -Hide
