## Ask Aburi: Miyazaki

We know that Boss and Tora Corporation is from Miyazaki, Japan, but where exactly is Miyazaki, and what is interesting about the city?

**Miyazaki** is the capital city of Miyazaki prefecture, located in the southern Kyushu region of Japan. Notable points of interest include *Oni-no-Sentaku-Iwa*, the city's breathtaking saw-toothed coastline, and beautiful traditional *Udo Jingu* shrine, natural *Takachiho* canyon and waterfall, among others.

**On a gastronomical journey?** Miyazaki's signature delicacies include their *jidori*, local chicken, served charcoal-seared. This is the dish that inspired our Aburi Chicken! Miyazaki is also famous for their juicy mangos, as well as *Imo Shochu* from the local Kuro Kirishima brewery.

Of course, if you do visit Miyazaki someday, don't forget to visit **Sushi Tora**, the original location that started it all! Have a seat at the counter and feast on our universally-loved Aburi sushi, *kaiten* conveyor belt style!
